Ground Rules

- **This is a public discussion, not a debate**

- **Everyone is encouraged to participate**

- **No one or two individuals should dominate a discussion**

- **One person speaks at a time**

- **Listen to and respect other points of view**

- **Do your best to understand the pros and cons of every option**

- **Seek first to understand, not to be understood**

What is a Master Plan?

- A 5–10-year road map for the future

- Grounded in the district's mission : "Successful learning for all students."

- A living & breathing document subject to change

- Physically & fiscally responsible

- Allows for logical implementation over time - phased approach

Mission & Goals

## Chariton CSD Mission Statement

SUCCESSFUL LEARNING FOR ALL STUDENTS

Mission & Goals

Foundational Goals

1. Provide education that is equitable

2. Make sure to reach each student where they are

3. Help students become good citizens of the community

Mission & Goals

Master Planning Goals

1. Create a Long-Term View of Education Delivery and Maintenance of Facilities

2. Make school system/district more attractive

3. Maintain a Student-Centered orientation & include students throughout the process

4. School and community to come together and be on the same page on facility plans

5. Make school system/district attractive to others outside of the community

6. Be financially responsible

7. Develop spaces in schools for new/different/more hands-on learning

8. Consider career readiness through the planning and design of all school facilities

9. Integrate 21st Century Learning into the master planning process (Collaboration, Communication, Creativity, and Critical Thinking)

Public Input

(June 7th @ 6:30, 14th @ 2:00, & 21st @ 6:30)

Questions to consider for each school…

1. What is working well? What needs to be improved?

2. Are there types of spaces or functions you would like to see added or improved upon that the district currently does not have or needs improved?

3. How are the common spaces doing? (cafeterias, rest rooms, libraries/media centers, corridors, etc.)

4. Do the visual and performing arts spaces need improved?

5. Are the administrative spaces at the district offices and buildings serving the district well?

6. Are the various spaces in the buildings comfortable regarding heating and cooling?

7. Is there enough natural daylight in the spaces?

8. How are the athletic facilities…indoor and outdoor facilities?

Traditional Classroom

21ˢᵗ Century Learning Environment

What are the differences?

21st Century Learning Environments

1. **Student Centered**

2. **Collaboration and team-based learning**

3. **Career oriented**

4. **Teaching kids to be inquisitive**

5. **Kids need engagement with each other and teachers**

6. **Communication; within the classroom and beyond the classroom**

7. **Technology Oriented**

8. **Critical learning - "What is relevant"**

9. **Learning through creation**

10. **Supporting different kinds of learning (i.e. self-reliant versus collaborative)**

11. **Flexible and diverse spaces**

12. **Life beyond high school - Life Skills**

13. **College and/or Career Ready**
